A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games may induce an epileptic seizure in these individuals. Certain conditions may induce undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing.

If you experience any of the following symptoms while playing a video game — dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions — IMMEDIATELY discontinue use and consult your physician before resuming play.

PLAYING THE GAME

You can watch a demo game by getting to the Title screen and then doing nothing. To start playing right away, press **Start** at the Title screen. The Game Select screen will come up.

Use the control pad buttons on page 4 to set up your game from the Game Select screen. Or turn to pages 20-25 for detailed instructions. Otherwise, keep reading for immediate NFL action.

Press **Start** again to go straight to the Playbook screen and set up for the kickoff.

➡ Press **Start** to begin the game.

SETTING UP FOR THE KICKOFF

The Playbook screen always shows the Visitors at the top and the Home team at the bottom. (You'll be the Home team if you went to this screen without changing any game settings.)

Check the plays to see if your team is kicking or receiving. (The computer randomly selects the kicking team for the start of a game.)

If you're kicking, your opening play options are:

- Kickoff (B)
- Onside Left (A)
- Onside Right (C)

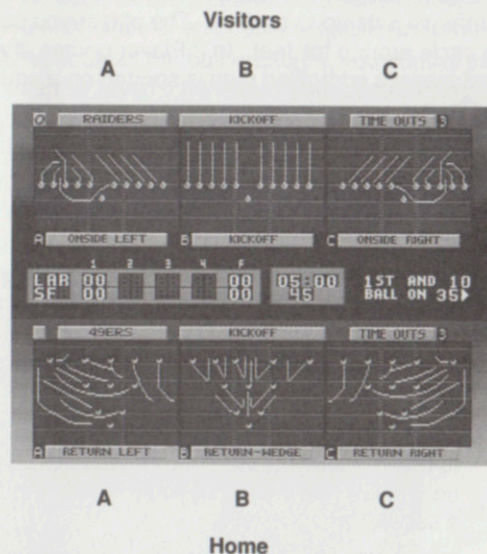

If you're receiving, your opening play options are:

- Return Wedge (B)
- Return Left (A)
- Return Right (C)

Call your opening play by pressing the button listed next to the play you want. You have 45 seconds to look the plays over and make a decision. The game clock is in the center of the screen. You'll receive a 5-yard delay of game penalty if you let the clock reach zero before snapping the ball.

The teams move onto the field as soon as you select your play. (In 2 Player head-to-head games, teams take the field as soon as both players choose their plays.)

SETTING UP THE KICKOFF PLAY

⇒ Press **A**, **B** or **C** to call your play.

⇒ Kick off before the 45-second clock reaches zero.

THE KICKOFF

The teams line up. The offense faces the opposing team's goal, with the ball spotted at the 35-yard line. The defense sets up to receive. The player you control has a circle around his feet. In 2 Player games, the second player's controlled man is spotted on a square.

*The kickoff is automatic if a CPU team is kicking.
Get your return man ready for the catch!*

Using the Kick meter:

1. Tap **A** to start the meter.
2. Press the **D-Button** UP or DOWN to move the red bar, controlling the angle of the kick. The ball in the Kick meter begins moving, indicating its distance.
3. Tap **A** again to kick. The closer the ball is to the end of the meter, the longer the kick will be. (You'll flub the kick if you forget to tap **A** a second time.)

If you're the kicking team:

1. Press **C** before the kick to change your controlled man. Press **B** to call an audible, and then press **A**, **B** or **C** (see page 15).
2. Use the Kick meter to start the kickoff.
3. Press **B** any time after the kick to switch your control to the player nearest the ball.
4. As soon as the ball is kicked, use the **D-Button** to run your man. Get him in line to tackle the ball carrier.
5. If he flubs, punch **B** again to switch control and go after the runner with a new defensive player.

If you're the receiving team:

1. Press **A** or **C** before the kick to switch players.
2. As soon as the ball is kicked, the game will select a kick receiver and position him automatically.
3. As soon as the ball is caught, you control the ball carrier (even if he wasn't your controlled man).
4. Sprint and maneuver toward the opposing team's end zone. Go for a TD return!

Game Time
(per quarter)

45-Second Clock

- ⇒ Check the weather vane for wind advantage or interference. A breeze blowing in your favor will carry the ball, so go for shorter kicks. If the wind is blowing against you, put the longest distance on the ball.
- ⇒ Kick before the 45-second clock runs down or you'll receive a 5-yard penalty for delay of game.
- ⇒ If you catch a kickoff in the end zone, you can stay there for a touchback. The next play will start with the return team getting the ball at its own 20-yard line.
- ⇒ In 2 Player co-op games, Player 1 controls the kick.

CALLING YOUR NEXT PLAY

The ball carrier is down! The play's over, the teams go into a huddle, and the Playbook screen comes up. It's time to plan your next strategy.

On offense, the red lines on a play show the direction the ball carrier will run. The white lines show the passing patterns of the receivers, and the yellow lines show their blocking routes.

On defense, the yellow lines show the defensive patterns, and the red lines indicate defensive players who blitz.

If you're on offense:

1. Press the **D-Button** LEFT/RIGHT to switch between ABC Control mode and Play Calling mode. ABC Control mode gives you three choices: Personnel (**A**), Formations (**B**) and Options (**C**).
2. Press **A** for Personnel, and press the **D-Button** UP/DOWN to flip through the choices. Watch the numbers change, showing what players will be on the field. Personnel groups range from Quads (4 wide receivers and 1 running back) to Heavy Jumbo (4 tight ends and 1 running back).

Different teams have different Personnel choices, depending on their capabilities.

Personnel
Choice

3. Press **B** to set up a formation. Press the **D-Button** UP/DOWN to scroll through your team's choices.

Formation

Not all teams or personnel groups have the same formations. The choices you'll have depend on the team you're running and the talents of your personnel group. See the Playbook starting on page 26.

4. Press **C** for Options. Now set your quarterback's position, either behind the center or shotgun, by pressing the **D-Button** UP/DOWN. (Not all Personnel/Formation combinations allow a quarterback adjustment.)

QB
Position

*As long as you're in ABC Control mode, you can highlight and use any choice by pressing **A**, **B** or **C**.*

5. Choose Play Calling mode (**D-Button** LEFT/RIGHT). Press the **D-Button** UP/DOWN to see your available plays. Some formations will have more plays than others. Look through them all so you won't be shortchanged.

A

If you're on defense:

1. Press the **D-Button** LEFT/RIGHT to get to your formations. You may see jersey numbers showing who your key defensive players are. Press the **D-Button** UP/DOWN to choose a formation.

GAME TYPE

Options: Exhibition
 League

When you change the setting to League play, you'll go on to the League screen (see page 22). Make sure you've chosen your team with the Team Select option before choosing League play.

GAME DIFFICULTY

 Normal
 Difficult

These skill levels control how well the CPU will play. In Beginner, the Playbook screen shows what play the CPU chooses. In Normal, you'll see the CPU's chosen formation. Difficult games are closest to real pro football — you've got to figure out through sight and savvy what your opponent is up to.

GAME TIME

Options: 20, 40 or 60 minutes

Games will have four quarters of 5, 10 or 15 minutes each, depending on your setting.

TEAM SELECT AND GAME OPTIONS

These choices take you to subscreens where you'll choose competing teams and set more game options (see pages 23-25).

PLAYBOOK

Knowing your players' abilities and studying your plays gives you the winning edge. So put this Playbook to work. It lists the skills and attributes of key players, and shows you two classic plays — one running and one passing — for each team.

Player skills are rated from 00 to 100. A rating of 50 shows an average ability; anything above 87 is outstanding.

Use the ratings to line up your personnel on offensive formations. Pick players with the right skills for the job. Running is always important — you gotta run to play. Speed and agility are necessary assets in every player. Since different positions require different skills, check the vital attributes. You'll want your wide receiver to have good hands. Running backs need speed and great blocking capabilities. A punter doesn't demand a high IQ, but he better know how to kick.

The plays show real setups used by each NFL team. They are examples of winning combinations based on the abilities of each team. They show how you can combine different personnel sets, formations and plays for effective strategy. You can select these combinations from the Playbook on screen. Or test your own tactical abilities by setting up the combination you think is best for putting points on the board.

Vary your calls. Even the most successful plays aren't effective all the time, and the defense is smart enough to "read" plays you use too often. Every situation is different. Consider the current down, yards-to-go, and your opponent's position before calling a play. Take into account the game clock and the current score. Even think about the players on the other team. Match up their skills with formidable players of your own.

That's how they do it in the REAL NFL.

Evander "REAL DEAL" Holyfield's Boxing™

A message from Evander Holyfield:

"You better Duck 'cause this ain't no two-bit sports simulation!" Sweats gonna fly and bloods gonna spurt in Evander Holyfield's "Real Deal" Boxing™ - 16-bit Genesis realism right in your face.

Speed. Stamina. Power. Defense. You design your own Boxer: right down to the haircut. But you gotta be strategic. There are twenty-eight hungry contenders lookin' to make you kiss can vas long before you get a title shot at the champ - Holyfield. But you've got 360 degrees of freedom.

So throw the jab, uppercut, a left hook maybe, then duck & drop 'em with a haymaker. The more you win, the more formidable you become. Evander Holyfield's "Real Deal" Boxing. It's tough, It's bloody. It's the Real Deal. Got the message!
