DEMO MODE

Press D-Pad or A, B, C button to exit demo game.

Press Start to pause the game and bring up scoreboard options.

NEW FEATURES

**The features below were added to NHL Hockey®
to create NHLPA Hockey '93®**

- Complete NHLPA rosters from 1992 hockey season featuring all of hockey's greatest stars.
- Tougher, faster goalies now dive for pucks, lunge for high corner slapshots and make heart-stopping kick saves! Much harder to score on!
- Compile and save individual player statistics in 8 different categories including shots on goal, points, save percentage and penalty minutes.
- Expansion teams Tampa Bay and Ottawa included in Hockey '93!
- New player defensive commands—hook quick offenders with your stick or knock them off balance from behind. Be careful, you can get sent to the box if you get caught!
- New player animations including super slap shots, great skate skills, flipping body checks and blood on the ice!
- Tougher, harder hitting computer opponent that delivers harder checks and reacts faster to offensive strategies.
- Create and save personalized team lines to cartridge—you be the coach!
- Player injuries—it's a part of the game. Knock opposing players out of the game with an extra hard body check.
- Professionally rated player characteristics based on 1992 season performance. Team rosters and ratings provided in back of manual.

- Pro Set "Stars of the Game" selected after each game. Realistically based on game performance.
- Dynamic organ music that reacts to real game situations.
- Home ice advantage—players statistics change according to game situation and enthusiasm of crowd.
- EASN pre-game scouting report for each team—over 10 rated categories.
- EASN sports coverage hosted by EASN sportscaster Ron Barr.
- Complete scoring summaries that track who scored, when they scored, and who assisted.
- Penalty summaries—track players penalty minutes and what they were called for.
- New, easier to use fatigue and line change system
- No password necessary to return to playoffs—start right up!
- EASN crowd meter—pump up the home crowd with a hard hitting, fast paced game and watch the home team react!
- Super slap shot that can shatter the glass behind the net!
- Track key players with EASN instant replay—key on any player, regardless of where the action is taking place!
- New strategic fighting system. Send in team "enforcers" to mix it up with opposing players. Work it right and take opposing players off the ice for the game.
- Enhanced and more aggressive computer power play intelligence.
- On ice goal and assist summaries including hat trick announcements!

NHLPA HOCKEY '93

NHLPA Hockey '93 is a super realistic, fast-action hockey game designed around the actual rules and players in professional hockey. The controls are easy to use, so you can begin playing immediately with just a quick glance at the control summary on page one. But if you want to master the complexities of NHLPA Hockey '93, you should go through the manual. As you get better and better at the game, you can set up increasingly more difficult contests.

PUT ON THE PADS AND HIT THE ICE: STARTING THE GAME

1. Turn OFF the power switch on your Sega™ Genesis™. NEVER insert or remove a game cartridge when the power is on.
2. Make sure your control is plugged into the port labeled Control 1 on the console.
If you're playing against or with a friend, plug his control into the port labeled Control 2.
3. Insert the game cartridge into the slot on the Genesis. Press the cartridge down firmly to lock it in place.
4. Turn ON the power switch.
5. When the *NHLPA Hockey '93* title screen appears, press START to see the Game Set-Up screen.

GAME SET-UP SCREEN

If you want to get into the game right away, go straight to the section below: **Playing for Real**.

But if you are starting *NHLPA Hockey '93* for the first time, you might want to watch an exhibition game.

1. D-Pad down to the Players line on the Game Set-Up screen.
2. D-Pad left/right until you see **Demo**.
3. Press START.

Unless you change the settings, Pittsburgh will play Chicago at Pittsburgh in a regular season game with three 10 minute periods; no penalties except fighting, and no line changes.

4. The Team Comparisons screen will appear. (See **Team Comparisons**.)

5. Press any button on the control. The camera brings you to center ice for the face off.

Kick back and watch the fast, hard-hitting action.

To get out of **Demo**, press any button except START. The *Game Set-Up Screen* will reappear.

PLAYING FOR REAL

You'll need to use the **Game Set-Up** screen every time you play. If you just watched the **Demo**, make sure to change the **Players** setting back to **One - Home**, or whatever mode you choose.

If you want to jump right in and wait until later to explore the other options, just press START to use the game's default settings. You will be Pittsburgh at home in white, going up against Chicago in red in a game with three 10 minute periods. There will be no penalties except fighting and no line changes.

When you're ready to set up your own game, D-Pad down through the options. A gray rectangle appears around the selected option. D-Pad left/right to change the setting for that option. Press START to begin the game.

OPTIONS AND SETTINGS

Play Mode

Regular Season: Play a regular season game.

Continue Playoffs: Return to a playoff series at the point where you left off. This option appears on the menu only after you win a playoff game.

New Playoffs: Begin in the first round of the Playoffs, needing only one win to advance.

New Playoffs/Best of 7: Begin in the first round of the Playoffs, needing four victories to advance.

Players

Regular Season

One - Home: You control **Team 1** against the computer-controlled **Team 2**.

One - Visitor: You control **Team 2** vs computer-controlled **Team 1**.

Two - Teammates: You and another person play as **Team 1** against the computer-controlled **Team 2**.

Two - Head to Head: You play against another person.

Demo: Watch an exhibition game.

Playoffs

Two - Head to Head: You play against another person.
Note: Only Team 1 can advance in the playoffs. If Team 2 wins a round, the playoffs are over.

One: You control **Team 1**.

Two - Teammates: You and another person play as **Team 1** against the computer-controlled **Team 2**.

The **Home** team is on the right side at the top of the **Game Set-Up** screen, and the **Visitor** is on the left.

The **Home** team always wears the light-colored jerseys, and the **Visitor** wears dark colors.

The **Home** team faces up-screen in the first period and third periods, down-screen in the second period.

Team 1

Home team in regular season play.

Team 2

Visitor in regular season play.

In both **Playoffs** modes, the player with Control 1 is **Team 1**, not necessarily the **Home** team.

Period Length

Each game consists of three periods and one or more overtime periods if necessary.

You can set the period length at **5 min.**, **10 min.**, or **20 min.**

A **Regular Season** game allows only one overtime period. The overtime period lasts for ten minutes, or until one team scores ("sudden death"). If neither team scores, the game ends in a tie.

Playoff games cannot end in a tie. Players will play as many sudden death overtime periods as necessary to establish a winner. The overtime periods last as long as the period length selected for that game, or until one team scores.

Penalties

On: The referees call all the penalties and infractions they see. (See **Penalties and Infractions**.)

On—Except Off-sides: The referees call penalties and infractions, except off-sides.

Off—Except fighting: The game will not be interrupted by penalties or off-sides, except when a fight breaks out. ICING IS ALWAYS CALLED.

Line Changes

On: The player/players control their team's line changes. (See **Line Changes**.)

Off: The players do not tire and stay in for the entire game.

Once you've set up the game the way you want it, strap on your helmet, put on your gloves, grab your stick and press **START**.

TEAM AND PLAYER STRENGTHS

All the NHLPA teams are represented in NHLPA Hockey '93. As in real life, some teams are stronger than others. Of course, a team's strength is based on individual player strengths. This is what makes NHLPA Hockey '93 so realistic.

Every player in the game has certain strengths and weaknesses, based on the actual strengths and weaknesses of the real teams from the 1991/1992 season.

In general, the center is the best scorer, and the wingers are also good with the puck. Defensemen are not particularly fast or good with the puck, but they check harder and defend more aggressively than the front line players.

TEAM COMPARISONS

	HARTFORD	SAN JOSE
Shooting	2	1
Skating	1	1
Passing	1	1
Defense	1	1
Checking	1	1
Fighting	1	1
Goalkeeping	1	1
Power Play Adv.	1	1
Home Team Adv.	1	1
Overall	1	1

Before the game begins, the Team Comparison screen appears. On this screen, the opposing teams are compared in various categories. The team with the higher rating in a given category is superior to the opponent in that area by the difference of the two numbers. For example, when opposing teams are rated 8 and 9 respectively in a certain category, there are nearly equal in that skill; but if opposing teams are rated 9 and 3 in a category, then the team with the 9 is vastly superior at that skill. The highest rating a team can receive is a 9, the lowest a 0. The best teams in the game are Montreal, Chicago, and New York. The weakest teams are Quebec, San Jose, Tampa Bay, and Ottawa.

THE FACE OFF

In the opening period, the home team's center faces up screen.

The visitor's center faces down screen.

At the top of the screen you see a close-up window of the two centers and the referee holding the puck in the air.

The referee drops the puck automatically. When the puck hits the ice, it's *live*:

- Hold D-Pad in direction you want to pass, press B, or
- D-Pad forward and press C to capture puck.

As you learn the game you will find that certain centers are tougher than others, and that some are more skillful with the stick. You will want to be aware of your center's particular strengths and weaknesses if you want to make full use of him on face offs.

The skills of every player on every team are ranked. (See p. 57: "Rosters and Ratings".)

SKATING

Right wing skates into the clear

Skating skills are fundamental to good hockey. You need to skate well to check hard, to avoid checks, to elude defenders, and to fake out goalies. NHLPA Hockey '93 lets you skate like a pro, but makes you pay for your mistakes.

OFFENSE: With control 1, your puck carrier skates on a solid light blue star with a dark blue outline. The computer's puck carrier skates on a solid light blue star with no outline. The outline color for control 2 is orange.

DEFENSE: With control 1, your active defenseman skates on an outlined star. The computer's defenseman is never marked with a star. The outline color for control 2 is orange.

- Press B to activate defenseman nearest to the puck.

Controlling your momentum is the key to good skating. When you reverse direction your player will skid a little before he actually turns around. Get a feel for this skidding and use it to your advantage by learning to predict how far players will slide before they stop. To come to a quick stop, press the D-Pad in the exact opposite direction the skater is skating.

- Control the direction of your player (and the direction of your passes) with the D-Pad.

PASSING

Player waits to receive pass

#5 passes puck

The key to a dominant offense is clean, accurate passing.

- Hold D-Pad in the direction you want to pass, press B.

If you do not hold the D-Pad, the player will pass the puck in the direction he is facing. The best passing method is to press the **B** button, then press down on the D-Pad, then release the **B**

button. The pass is launched when the D-Pad is pressed while the **B** button is down.

When the puck reaches a player, that player usually controls the puck.

An opponent can intercept a pass if he gets to the puck first.

Try to keep track of where players are off-screen.

In general, the center skates up center ice, the two wingman on either side of him, and the two defensemen behind on opposite sides.

If the player you control is off-screen, an arrow (→) of matching color to your star outline, at the edge of the screen indicates the location of that player.

When playing in either of the **Two Player** modes, the blue arrow indicates the Control 1 player, the orange arrow the Control 2 player.

If you know where all your teammates are, you can pass quickly (forward, to the side, and behind you) and confuse the defenders.

On medium to long range passes, it is smart to press **B** immediately after you pass the puck to control the target player before the puck arrives; this way you can evade defenders and pick up the puck in the clear.

PLAYING AS TEAMMATES

When **Two Player-Teammates** is selected, two players compete against the computer.

The player with Control 1 controls the man on the blue outlined star and always faces off.

The player with Control 2 controls the man on the orange outlined star.

The player in control of the puck is shown with his star filled-in in blue.

All the controls remain the same.

On defense, when both players press **B**, the player who pressed **B** first becomes the defender closest to the puck. The other player becomes the next closest defender.

The player with Control 1 controls the goalie after the goalie captures the puck.

FIGHTING

Sometimes two or more players lose their cool and fight. The referees are powerless to stop such behavior, and they would be unwise to try.

- Press A to hold your opponent.
- Press B to throw a body punch.
- Press C to throw a head shot.
- Press the D-Pad left/right to move back and forth.

PENALTIES

When the **Penalties** option is **On**, the referees call all the penalties they see. Penalties cost you a trip to the penalty box.

Different penalties are called in different situations.

You can keep penalties to a minimum by laying off the **C** button on defense. The **C** button gives the player you control an extra burst of speed, so your checks are harder and your collisions more explosive.

Below is a list of the various penalties.

HOLDING

Illegally grabbing or pinning a player so that he can't move.

ROUGHING

Unnecessary roughness or causing an injury.

SLASHING

Deliberately hitting an opponent with the stick in order to obstruct or intimidate him.

CROSSCHECK

Lifting the stick off the ice with both hands and using it to check an opponent.

TRIPPING

Tripping the puck carrier. The referee has to believe there was no attempt to capture the puck.

HOOKING

One player's attempt to "hold up" another player with his stick.

CHARGING

Slamming into another player after two or more deliberate strides in his direction.

INTERFERENCE

Interference is called only when a player interferes with the opposing goalie in the crease or on his way back to the crease. Argue if it makes you feel better, but you can't overrule the officials.

FIGHT INSTIGATION

Intentionally starting a fight, in the referees opinion. A teammate of the player who started the fight is pulled from the bench to serve the penalty.

FIGHTING

Throwing off your gloves with the intention of using your fists on another player.

Fighting brings 5 minutes in the penalty box. All other penalties bring 2 minutes.

One player is released from the penalty box when the opposing team scores on a **Power Play**. (See **Power Play**.)

If there are two or more players in the box, the player with the least amount of time remaining in his penalty period is released.

COINCIDING PENALTY RULE

When two players from opposing teams are each assessed equal penalty minutes at the same time, both players are automatically replaced, so that the same number of players remains on the ice.

DELAYED PENALTY CALL

When a penalty is called on a player from the team without the puck, action is not stopped immediately. The referee appears on the screen to whistle the penalty, but play does not stop until a player on the penalized team captures the puck. During that time, the goalie from the team with the puck skates off the ice and is replaced by a forward. As soon as the penalized team

captures the puck and play is stopped, the goalie returns. If the offensive team scores before the penalized team captures the puck, the penalty is not called.

DELAYED PENALTY

No team will have less than three players (not including the goalie) on the ice. If a penalty is called on a team with two players in the box, the offending player goes to the box and is replaced. His penalty time does not begin to run down until one of his teammates' penalty periods expires.

INFRACTIONS

THE ATTACKING ZONE

The attacking zone is marked by a blue line on your opponent's side of the ice. When you cross this blue line in the direction of your opponent's goal, you have entered the attacking zone.

Your attacking zone is your opponent's "defensive zone."

ICING

Icing is called when a player passes or shoots the puck across the red center line, the opponent's blue line, and the red goal line, but not through the crease.

If a player on the offensive team touches the puck after it has been "iced", the infraction is not called.

Icing is not called on a shot on goal.

Icing is not called on a team that is short-handed because of a penalty. (See **Penalty Killing**.)

There is no "two-line pass" infraction in **NHLPA Hockey '93**.

After an icing call, the referee will stop play and set up a face off in the defensive zone of the guilty team.

OFF-SIDES

Teammate in
attacking zone

Puck crosses
blue line

Number 2 has skated across the blue line with the puck when his teammate was already in the attacking zone.

The puck must enter the attacking zone before any player on the offensive team enters the attacking zone, or else off-sides will be called.

The puck cannot be passed across the blue line to a player waiting in the attacking zone.

Once in the attacking zone, if the puck crosses the blue line OUT of the attacking zone, all offensive players must "clear" (leave) the attacking zone before the puck can be brought back across the blue line.

EXAMPLE: You attempt a shot-on-goal in the attacking zone. The other team's goalie stops the puck and quickly passes it to a teammate, who brings it up the ice out of the attacking zone. As soon as he crosses the blue line, you bodycheck him and steal the puck. Now you must wait for your teammates to skate out of the attacking zone before you can bring the puck back into the attacking zone.

A referee window will pop up to warn you that if you cross into the attacking zone you will be off-side.

The referees always catch the off-sides infraction (when you have it ON) and stop the action. The puck is faced off behind the blue line.

SCORING

One point is awarded per goal.

- To take a shot on goal, press C when you have the puck
- Use D-Pad to aim puck left/right/up/down.

There are two different shots: wrist shots and slapshots.

- Wrist Shot: Press and release C quickly.

A wrist shot is slower but more accurate than a slap shot. Wrist shots are most effective when close to the goal.

- Slap Shot: Hold down C.

A slap shot is harder, faster, but less accurate than a wrist shot. Slap shots are most effective further back in the attacking zone when the goalie is not set.

The longer you hold down the C button, the harder the slap shot.

- D-Pad up to give shot height.
- D-Pad down to keep shot low.
- D-Pad left/right to shoot into the corner of the net.

Look for a slap shot to bounce off the goalie or the net, grab the rebound, and flick the puck in with a wrist shot.

LINE CHANGES

Scoring line 1 is fatigued

Hockey is a grueling sport, and players need to rest every so often, especially in long games.

If you want to make line changes, set Line Changes to ON on the Game Set-Up screen.

Fatigue bars on the right side of the line-name show how fresh (or tired) that line is. The longer the bar, the fresher the line.

You can make line changes whenever action is stopped (end of period, penalty, goal, face off, etc) or whenever you control the puck.

Before each face off, the Line Change window will appear on the screen for a few seconds. Press the letter corresponding to the line you want on the ice.

If you don't press a button, the line next to the letter 'A' will take (or remain on) the ice.

Unless a Power Play is beginning or ending, the line currently on the ice is listed next to the letter 'A'.

(See Power Play Lines and Penalty Killing Lines for more information.)

You can change lines during play only when you control the puck.

- Press A.

A window appears showing the current available lines and their fatigue bars.

- Press A to select the line next to the letter 'A', B for 'B' and C for 'C'.

Each team has seven different lines: Scoring lines 1 and 2 (**Sc1** and **Sc2**), Power Play lines 1 and 2 (**Pw1** and **Pw2**), Penalty Killing lines 1 and 2 (**Pk1** and **Pk2**), and a Check line (**Chk**).

Change lines before they use 25 % of their energy to maximize performance of the team. Be careful about changing your line while your puck carrier is in the defensive zone. If your opponent steals the puck, you could be left short-handed on the defensive end while the fresh players are coming onto the ice.

Your fatigue bar may be decreased due to one player who's "dogging it." Go to the *Edit Line* screen to get rid of the player who is out of shape.

SCORING LINES AND CHECKING LINE

Sc1 starts every game. You can change to **Sc2** or to the **Chk** line as soon as you have the puck or when a face off occurs.

Scoring lines are fast, agile, and good with the puck.

The **Chk** line is your "big" line, generally slower but harder hitting and better on defense.

POWER PLAY LINES

Power
play
clock

Whenever one team has at least one more player on the ice than the other team, that team has a **Power Play**.

Some of the players on the Power Play lines are also on the regular lines (Sc1, Sc2, Chk) or the Penalty Killing lines (Pk1, Pk2).

The **Line Change** box appears automatically before each face off.

- Press **A** when you have the puck to show Line Change box.
- Press **A** or **B** to select **Pw1** or **Pw2**. If you press neither, the team next to 'A' will take the ice.

For the first **Power Play**, 'A' corresponds to **Pw1** and 'B' to **Pw2**. In all subsequent power plays, 'A' corresponds to the line most recently on the ice.

It is important to select a line when the Line Change window appears, unless you are certain that you want the line next to the letter 'A' to take the ice. Otherwise, you run the risk of inserting a tired line.

- When a power play ends, select from one of the Scoring Lines or the Check Line.

The line most recently used (usually the most fatigued line) is listed next to 'A'. Be sure to select a different line if that line is not at full strength, unless you **REALLY** want to wear down those tired players.

PENALTY KILLING LINES

The **Penalty Killing Lines** consist of some of the players in the corresponding **Scoring Lines** and are used against a Power Play.

The substitution of **Penalty Killing Lines** for Scoring and Checking Lines works exactly as described above in **Power Play Lines**.

SCOREBOARD

The scoreboard provides a wide range of choices available during play or between periods. All the different options are explained below.

- Press **Start** during play to bring up the Scoreboard.

INSTANT REPLAY

At any point in the game, or at a break in the action, you can replay the last ten seconds of action.

- Press **START** to pause the game.

The **Pause** screen will appear.

- D-Pad down to **Instant Replay**.
- Press **C**.

The replay is automatically rewound as far as possible. A box appears showing VCR-style control instructions.

- Press **C** to roll replay (normal speed).
- Press **C** or **B** to stop replay.
- Press and hold **B** to play replay (slow motion); release to stop.
- Use D-Pad to move the view around the ice.

- Press **A** to rewind to the replay; release to stop.
You will see the action in reverse at high speed.
- Press **START** to return to scoreboard.
- Press **START** to resume play.

CHANGE/REMOVE GOALIES

In professional hockey, the same goalie never starts every game. In NHLPA Hockey '93, the goalie is chosen randomly for computer controlled teams in regular season games, when line changes are ON. Otherwise, the 1st string goalie starts.

Goalies do not tire, but if yours is not performing up to your standards, or if you just feel like giving the other guy a chance to show what he's worth, you can change goalies.

- Press **START** to go to **Pause Screen**.
- D-Pad down to Change Goalie and press **C**.
- D-Pad to alternate goalie (or to **None**) and press **C**.
- Press **START** to resume play.

At certain times, you might want to remove your goalie. When you remove your goalie (leaving the net undefended) a forward is substituted when the goalie leaves the ice to give you an extra player up front. This gives you a better chance of scoring.

The computer will sometimes remove its goalie in the third period when it is losing and the game is close.

On a delayed penalty call against you, the computer will sometimes remove its goalie to give itself a brief advantage.

You might want to remove your goalie when you're losing and time is running out. On a delayed penalty call against the computer, once you gain control of the puck, the computer will automatically remove your goalie and bring in a forward to replace him. This is NOT listed as a Power Play, since there are equal numbers of players on the ice.

EDIT LINES

In *NHLPA Hockey '93*, you can edit a team's lineup and save those edits. The program will store the changes only to one team's lineup at a time, and previously saved lineup edits are automatically deleted when new lineup edits are saved. You may edit lineups before the opening face off, or at any time during the game. When line changes are on, you can edit all seven lines (see pp. 33-35 for more about the different lines). When line changes are off, you can edit only Scoring Line 1.

- Press **Start** before or during play to bring up the scoreboard.
- Highlight Edit Lines and press **C**.
- Use the D-pad to highlight the player on the line you wish to remove. The name and jersey number of that player appears in a narrow box above the line up list(s).
- To select a highlighted player, press **C**. A list of substitutes eligible to play that position appears at the top of the screen.

Select Player		*Aggressiveness*
22	Bob Brown	66
10	Brian Noonan	66
26	Jocelyn Lemieux	66
16	Michel Goulet	46
23	Stu Grison	100
14	Greg Gilbert	46

Sc1 Line	Sc2 Line	Chk Line
LD Chelios	Kucera	Marchment
RD Smith	Brown	Buskas
LW Goulet	Gilbert	Lemieux
C Roenick	Sutter	Hudson
RW Larmer	Brown	Graham

Stu is most aggressive

- Highlight a player from the eligible substitutes list.
- D-Pad left/right to toggle through the various ratings categories to assess the qualifications of that player. The higher the rating, the better that player is at that particular skill or attribute.
- When you've decided which player you wish to substitute, press **C**.
- Repeat the process for each substitution you wish to make, then press **Start**. A menu box appears.

SAVING LINE EDITS

After you edit a line, you have the option of saving it for later use. **Remember: Whenever you save an edited line, the program automatically deletes the previously saved edited line.**

- Highlight *Save Team Line*, and then press **C**.
- Press **Start** to call up the menu box; press **Start** again to exit the Line Editor and to return to the scoreboard.
- Highlight *Resume Game* to return to the ice.

15	Body Checks	4	
3:01	Attack Zone	4:02	
15/22 (68%)	Passing	28/37 (75%)	

At any point during the game, you can take a look at the current game statistics.

- Press **Start** to bring up the scoreboard.
- Highlight *Game Stats* and press **C** to bring up the *Game Statistics* screen.

Each team's current game statistics appear beneath the team's name.

Score: Number of goals scored.

Shots: Number of shots taken on the goal.

Power Play: Number of goals scored during power plays/number of power plays. (see p. 34 for more on Power Play.)

Face offs Won: Number of face offs won.

Body Checks: Number of body checks delivered even after the whistle blows.

Attack Zone: Amount of time spent in the Attacking Zone. (see p. 27 to more on the Attacking Zone.)

Passing: Number of passes successfully received/number of passes attempted.

- Press **Start** to exit the *Game Statistics* screen.
- Press **Start** again to return to the ice.

PLAYER STATISTICS

CHICAGO						
PLAYER STATS						
+ Shots On Goal +						
Player	G	A	Pts	SOG	PIH	
1 27 Roenick	1	0	1	3	0	
2 12 Sutter	0	0	0	2	0	
3 28 Larner	0	0	0	2	0	
4 5 Smith	0	0	0	1	0	
5 22 Brown	1	0	1	1	0	
A - Switch Teams						

You can check individual players' game statistics for either team at any time during play.

- Press **Start** to bring up the scoreboard.
- Highlight *Player Stats* and press **C** to bring up the *Player Statistics* screen.
- Press **A** to bring up the stats for the opposing team.

There are two ways to look at the statistics—by player or by statistic. You may want to look at how well a particular player is doing in general.

- D-Pad up/down to find the player whose stats you wish to see (if that player is not among the first five shown).

G—Goals scored

A—Assists made

Pts—Points earned (Goals + Assists)

SOG—Shots on goal

PIM—Penalties in minutes

Or you can rank the players in order of their performance in the various categories. For example, if you want to see which players have taken the most shots on the goal, select *Shots on Goal*. The player with the most shots on goal will appear at the top of the list, followed by the player with the second most shots on goal, and so on.

- D-Pad left/right to toggle through the different statistics categories.
- Press Start to return to the scoreboard.
- Press Start again to return to the ice.

SCORING SUMMARY

CHICAGO		ST. LOUIS		
SCORING SUMMARY				
Per	Time	Te	Goal/Assist	P/S
1	1:58	CHI	22 R. Brown	
1	2:40	STL	18 R. Wilson	
			4 B. Zumbo	
			31 C. Joseph	
2	1:59	CHI	27 J. Roenick	
			30 E. Belliveau	

The scoring summary recaps all the goals: the period, the time elapsed in the period, the team, the player who scored the goal (followed by the player(s) who earned assists on the goal, if any), and the penalty situation at the time.

The initials **P/S** stand for 'Penalty Situation'. When no item appears in this space, both teams had an equal number of players on the ice.

PP—goal scored during a power play.

PP2—goal scored with a two player advantage.

SH1—goal scored while short handed one player.

SH2—goal scored while short handed two players.

- Press **Start** to bring up the score board.
- Highlight *Scoring Summary* and press **C** to bring up the Scoring Summary screen.
- D-Pad up/down to scroll up/down the screen (if necessary).
- Press **Start** to return to the scoreboard.
- Press **Start** to return to the ice.

PENALTY SUMMARY

CHICAGO		ST. LOUIS		
PENALTY SUMMARY				
Per	Time	Te	Player/Penalty	min
2	3:38	STL	14 P. Cavallini HOLDING	2
2	4:09	STL	6 M. Baron CROSSING	2

Like the scoring summary, the penalty summary indicates the period in which the penalty was called, the time elapsed, the team whose player committed the penalty, the number and name of the player, beneath which appears the name of the infraction and the length of the penalty in minutes.

- Press **Start** to bring up the score board.

- Highlight *Penalty Summary* and press **C** to bring up the Penalty Summary screen.
- D-Pad up/down to scroll up/down the screen (if necessary).
- Press **Start** to return to the scoreboard.
- Press **Start** to return to the ice.

TEAM ROSTER

CHICAGO	
TEAM ROSTER	
*Penalty Kill *	Status *
Pos. Player	Rating
LD 7 Chris Chelios	Bench
RD 5 Steve Smith	Bench
LW 20 Mike Hudson	Bench
C 28 Steve Lamer	Bench
A - Switch Teams	

The Team Roster contains all seven lines and the list of the goalies for a particular team. (See p. 33 35 for descriptions of the different lineups.)

- Press **Start** to bring up the score board.
- Highlight *Team Roster* and press **C** to bring up the Team Roster screen.

The box on the left displays the name of the lineup shown on the screen. Each player is listed by position, jersey number, and name.

LD—Left Defenseman (shown as **D** on the ice)

RD—Right Defenseman (shown as **D** on the ice)

LW—Left Wingers (shown as **L** on the ice)

C—Center (Shown as **C** on the ice)

RW—Right Wingers (shown as **R** on the ice)

- D-Pad up/down the change lines.

The box on the right displays the ratings category in which each player is being evaluated.

- D-Pad left/right to scroll through the different ratings categories. Most of the ratings are numerical, the higher the number the better the player at that category.

GOALIES (You can't control the goalie's movements.)

Status: On the Ice/On the Bench.

Overall: The goalie's overall ability.

Agility: The goalie's agility on the ice.

Speed: The goalie's speed on the ice.

Glove Hand: The hand the goalie catches with.

Def. Awareness: Goalie's sense of what's going on.

Puck Control: Goalie's ability to control the puck.

Stick Right: Goalie's stick handling to the right side.

Stick Left: Goalie's stick handling to the left side.

Glove Right: Goalie's glove handling to the right side.

Glove Left: Goalie's glove handling to the left side.

Weight: Goalie's body weight in pounds.

LINE PLAYERS

Status: On the Ice/On the Bench/Injured/Penalized

If a player is in the penalty box, the time remaining in his penalty appears as his status. If there is a **C** following the time, that indicates a coinciding penalty. (see p. 25)

If a player is injured, 'Injury' appears as his status. A **P** after injury indicates 'out for the period', while a **G** indicates 'out for the game'.

Overall: Player's overall ability.

Energy: Player's current energy level.

Agility: Player's agility on the ice.

Speed: Player's top speed on the ice.

Handed: Player's best shooting side.

Off. Awareness: Player's offensive instinct.

Def. Awareness: Player's defensive instinct.

Shot Power: How hard the player can shoot the puck.

Shot Accuracy: Players' skill in shooting the puck.

Pass Accuracy: Player's skill in passing the puck.

Stick Handling: Player's overall skill with the stick.

Weight: Player's body weight in pounds.

Endurance: Player's stamina on the ice.

Aggressiveness: Player's likelihood of being penalized.

Checking: Player's effectiveness as a checker.

Fighting: Player's fighting ability.

OTHER SCORES

EASN HOCKEY NIGHT SCORES		
Washington	6	Final
Philadelphia	3	
New York	4	30
Long Island	3	
Boston	4	
Quebec	2	Final
Montreal	4	
Hartford	5	30
Los Angeles	4	
Calgary	5	Final
Vancouver	5	
San Jose	4	Final
Detroit	7	
Toronto	1	30

The scoreboard provides scores from other games in both play-off and regular season modes.

- Press **Start** to bring up the score board.
- Highlight *Other Scores* and press **C** to bring up the Other Scores screen.
- D-Pad up/down to scroll up/down the screen (if necessary).
- Press **Start** to return to the scoreboard.
- Press **Start** to return to the ice.

CROWD METER

CHICAGO — ST. LOUIS	
CROWD METER	
Current Level	80 dB
Average Level	76 dB
Peak Level	96 dB

The Crowd Analysis screen displays the statistics to decibels recorded from the crowd's cheering. These include the current decibel level, the average decibel level recorded over the course of the game, and the highest, or 'peak', decibel level since the opening face off. The record in Electronic Arts' in-house Hockey League is 140, with an average level of 128.

- Press **Start** to bring up the score board.
- Highlight *Crowd Meter* and press **C** to bring up the *Crowds Meter* screen.
- D-Pad up/down to scroll up/down the screen (if necessary).
- Press **Start** to return to the scoreboard.
- Press **Start** to return to the ice.

TIMEOUT

Calling a timeout restores all the lines on both teams to full vitality, and can be used by each team only once during a game. When playing with line changes off, the players do not lose vitality, and so the timeout has no real function. But when playing with line changes on, using the timeout at the right juncture in a game can create a tremendous advantage. Once you use the timeout, it disappears from the scoreboard menu.

- Press **Start** to bring up the score board.
- Highlight *Timeout* and press **C**.
- Press **Start** to return to the ice.

STARS OF THE GAME

At the end of every game, Ron Barr at the EASN Sports Center selects the Pro Set stars of the game. Scores, assists, and excellent goal keeping usually qualify a player as a star. But even if your goalie saves 99 of 100 shots on goal, if that one he let get by is a game winner, he hardly feels like a star.

PLAYOFF MODE

When you select **New Playoffs** or **Playoffs/Best of 7**, you will find yourself in the playoff tournament.

If you are playing against the computer, you will always be **Team 1**. If you're playing **Head-to-Head**, the player with Control 2 will always be **Team 2**.

Make sure to check if you are the **Home** team or the **Visitor**. The **Home** team is on the right at the top of the **Game Setup** screen in the light-colored jerseys and faces up-screen in the first period, alternating after that.

- Press **START** to see playoff tournament pairings.
- Press **START** again to begin your first game.

When the first game is over, the new pairings will appear. Only the winners advance.

If you lose in the first round and you want to play that team again, to return to the **Game Setup** screen and select **New Playoffs**. Then simply select the same match-up and try again.

PLAYOFF STATISTICS

CHICAGO						
PLAYOFF STATS						
Goals						
Player	G	A	Pts	GOG	PIH	
1 7 Chelios	1	0	1	1	0	
2 16 Goulet	1	1	2	6	0	
3 27 Roenick	1	0	1	6	0	
4 2 Marchment	0	0	0	0	0	
5 3 Kravchuk	0	0	0	0	0	
+						

At the end of every playoff game, your team's updated statistics automatically appear before you move on the next game. The playoff statistics screen can track the combined statistics for all the games (4 best of 7 series) of the tournament.

SAVING THE PLAYOFF TREE

When you win a playoff game you can save your spot on the playoff tree and continue the playoffs later. After the playoff game is finished, you see the *Players of the Game* screen and then the *Highlights from other Games*. When all the highlights are replayed, the program will highlight **Exit Game**.

- Press **Start** or **C** to save the playoff tree.

Your spot on the tree will be saved until you replace it with another tree. So you can play regular season games or new playoff games without destroying what you've saved.

- Select **Continue Playoffs** from the *Main Menu* to return to your spot on the saved playoff tree.

HIGHLIGHTS

You can look at highlights from other games around the league.

At the end of each period you will see the score of an ongoing or completed game in a box below the scoreboard.

Press **START** to bypass the scores.

You can check the scores around the league at any time by pausing the game and bringing up the **Other Scores** screen.

If you want to stop a highlight, press **C**. Pressing **C** will take you back to your game.

INJURIES

Sometimes a player takes a vicious hit and must leave the ice for a period. A player injured in a fight leaves for the rest of the game. The program automatically replaces the player with the one best suited to play his position.

Rosters and Ratings

The following tables provide ratings categories for all the players in *NHLPA Hockey '93*. The developers used these qualities to define the depth and skill of each individual player in the game. The two All Star teams are comprised of the best players in the game.

All ratings are reflected in the gameplay.

	ABBR	SHOOT	SKATE	PASS	DEF	CHECK	FIGHT	GOAL	OVERALL
All Stars East	ASE	9	9	9	9	9	0	9	9
All Stars West	ASW	9	9	9	9	9	0	9	9

ELECTRONIC ARTS LIMITED WARRANTY

WARRANTY - Electronic Arts warrants to the original purchaser of this Electronic Arts software product that the medium on which this computer program is recorded is free from defects in materials and workmanship for a period of ninety (90) days from the date of purchase. This Electronic Arts software program is sold "as is," without express or implied warranty of any kind, and Electronic Arts is not liable for any losses or damages of any kind resulting from use of this program. Electronic Arts agrees for a period of ninety (90) days to either repair or replace, at its option, free of charge, any Electronic Arts software product, postage paid, with proof of purchase, at the Electronic Arts Warranty Department. This warranty is not applicable to normal wear and tear. This warranty shall not be applicable and shall be void if the defect in the Electronic Arts software product has arisen through abuse, unreasonable use, mistreatment or neglect.

LIMITATIONS - THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES AND NO OTHER REPRESENTATIONS OR CLAIMS OF ANY NATURE SHALL BE BINDING ON OR OBLIGATE ELECTRONIC ARTS. ANY IMPLIED WARRANTIES APPLICABLE TO THIS SOFTWARE PRODUCT, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE NINETY (90) DAY PERIOD DESCRIBED ABOVE. IN NO EVENT WILL ELECTRONIC ARTS BE LIABLE FOR ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES RESULTING FROM POSSESSION, USE OR MALFUNCTION OF THIS ELECTRONIC ARTS SOFTWARE PRODUCT.

Some states do not allow limitations as to how long an implied warranty lasts and/or exclusions or limitations of incidental or consequential damages so the above limitations and/or exclusions of liability may not apply to you. This warranty gives you specific rights, and you may also have other rights which vary from state to state.

RETURNS AFTER WARRANTY - To replace defective media after the ninety (90) day warranty period has expired, send the original cartridge to Electronic Arts' address below. Enclose a statement of the defect, your name, your return address, and a check or money order for \$20.00.

**Ron Barr, sports anchor,
Electronic Arts Sports Network**

Emmy Award-winning reporter Ron Barr brings over 20 years of professional sportscasting experience to EASN. His network radio and television credits include play-by-play and color commentary for the NBA, NFL and the Olympic Games.

In addition to covering EASN sporting events, Ron hosts Sports Byline USA, the premier sports talk radio show broadcast over 100 U.S. stations and around the world on Armed Forces Radio Network and Radio New Zealand.

Barr's unmatched sports knowledge and enthusiasm afford sports fans everywhere the chance to really get to know their heroes, talk to them directly, and discuss their views in a national forum.

LISTEN IN!
Tune in to the ELI

Tune in to SPORTS BYLINE USA for the ELECTRONIC ARTS SPORTS NETWORK TRIVIA CONTEST for a chance to win a free EASN sports game. Check local radio listings.

10:00 p.m. to 1:00 a.m. E.T.
9:00 p.m. to 12:00 a.m. C.T.
8:00 p.m. to 11:00 p.m. M.T.
7:00 p.m. to 10:00 p.m. P.T.

JOIN NOW!

The EASN Players Association will keep you in tune with the latest-breaking sports news from Electronic Arts! Members get advance notice on new EASN games (including all the details and release dates) along with strategy hints from our all-pro design team. You can also get special sports merchandise offers not available anywhere else.

That includes the entire EASN Players Association kit: EASN baseball cap; EASN Sunglasses and SnugZ™; EASN Players Association jumbo sticker; EASN Players Association stickers; EASN Players Association school folder and pencil; John Madden ruler; EASN embroidered patch, plus a personalized membership card. And if that isn't enough, as a member of the Players Association you'll get a 15-card pack of the 1991-92 SkyBox™ Series II NBA Trading Cards.

It's a huge value, so start working out by sending in your check, money order, or VISA/MC/DISCOVER for \$10 plus \$4.50 shipping and handling to:

EASN Player's Association
P.O. Box 7530
San Mateo, CA 94403-7530

or call, 415/571-7171, ext. 555,
8am-5pm Pacific Time Monday-Friday.
Allow 4-6 weeks for delivery.
