VR COMBAT INTENSITY!

The evil Grimlord has zapped the VR Troopers into a vile virtual reality video game. It's up to Kaitlin Star, Ryan Steel and JB Reese to fight their way out!

Use each Trooper's special fighting moves to defeat the mighty Tankotron, Decimator, Darkheart, Magician and Kongbot. Work over the stealthy Skugs in the Battle Grid. Then meet Kamelion in a fiery showdown to overthrow the cynical Grimlord!

Throw atomic shurikens, attack with your laser lance and wreak havoc with turbine kicks! Execute more than 50 moves in all!

Blast your way through the Story Game, or test your combat skills against the CPU. Ready for high-impact 2-player action? Choose the Vs. Battle, and mix it up as your favorite VR Trooper, or as one of Grimlord's warriors.

STARTING UP

1. Set up the Genesis system and plug in Control Pad 1.
2. Make sure the power switch is OFF. Insert the *VR Troopers* cartridge into the console and press down firmly.
3. Turn the power switch ON. In a few moments the Sega screen will appear.
4. Press Start when the Title Screen appears.

Important: If you don't see the Sega screen, turn the power switch OFF. Make sure the Genesis system is set up correctly and the cartridge is firmly inserted in the console. If the system is connected to a TV, make sure it's turned to the correct channel (3 or 4). Then turn the power switch ON again.

Always make sure the power switch is OFF before inserting or removing the Genesis game cartridge.

STORY GAME

Follow the story of the Troopers as they attempt to defeat Grimlord's goons and escape from his twisted video game.

The Story Game begins at the Fighter Select Screen. Press LEFT/RIGHT on the D-Pad to fight as JB Reese, Ryan Steel or Kaitlin Star.

The VR Trooper you select will take on the enemy at the bottom of the screen in a sudden death, best-of-three or best-of-five match. Each time you defeat an enemy, you'll earn points, and a chance to face more enemies. You'll also get some counsel from Professor Hart, Jeb and Grimlord himself.

To escape the virtual world, defeat all five of Grimlord's robots, and the three clones of JB, Ryan and Kaitlin Star. Then you'll have to prevail against fiery Kamelion in a heated showdown.

BATTLE GRID BONUS ROUND

Each time you defeat an enemy in a match, you'll earn a chance to rack up bonus points by battling Skugs in the Battle Grid. The more Skugs you defeat before time runs out, the more points you get!

Each enemy you defeat increases your time in the Battle Grid. But be warned, if you get killed by the Skugs your quest to defeat Grimlord is over.

SCREEN INDICATORS

During each battle, keep track of these indicators on the Combat Screen:

Fighters — Shows Player 1 on the left, the CPU opponent (or Player 2) on the right.

Strength — Sap all your opponent's strength and you win the round. Otherwise, the fighter with the most strength left at the end of the round (when time runs out) is the winner.

Round indicator — Displays a red light for each round won.

Countdown — Displays the time left in each round.

CONTINUES

If you lose to Grimlord, don't give up. You get 3 Continues to fulfill your quest. Press Start at the Continue Screen before the 10-second clock runs out for a chance to get revenge against the enemy that beat you.

RACK UP POINTS

After each match in the Story Game — and after each venture into the Battle Grid — you'll see your points total for the round and for the game.

GO FOR THE HIGH SCORE!

The top ten scores are posted on the High Score Screen. If you make a high score, select the first of your three initials by pressing UP/DOWN on the D-Pad. Then press RIGHT on the D-Pad and use the same routine to select your second and third initials. When you're through entering your initials, press Start.

Press the D-Pad LEFT/RIGHT on the Fighter Select Screen to choose your fighter for each battle. When both Player 1 and Player 2 have selected a fighter, Player 1 presses Start to advance to the Combat Screen.
